Judging from the way politicians are being roasted in this campaign, we haven't got the heart to say they haven't earned the money.

We are mighty sorry that Roosevelt has acted so that the cartoonists have felt called upon to create studies for the dentists of America.

Inferring from the way that the shots of the Hon. G. Cleveland landed on the G. O. P. elephant, ducks will be sorry that the shooting season will soon lure the old man to their feeding grounds.

The Indiana Republicans claim the State but have some fears. Even that shows that the Democrats are not rainbow chasers when they set up the claim that their chances in Indiana are good.

The Washington Post of Monday contains an illuminating editorial on "The passing of the cheap loaf." Of course the Post is referring to the increased price of bread. Has Secretary Shaw got everything going his way?

It appears that Culebra, another one of the provinces of Colombia, is about to secede. There is a recent precedent to warrant a ten-acre lot to stand up as one man, but as there is no canal zone in Culebra she will have too look out for herself if she get too gay.

The attention of the Richmond Times-Dispatch is called to a dispatch from Fort Riley, Kansas, stating that a mule had kicked Lieutenant H. A. Roberts to death. Our Richmond contemporary has to acknowledge that its faith in the always to be suspected mule must be consigned to the "limbo of negation."

Tom Watson is denouncing the Hon. William Jennings Bryan for supporting Judge Parker. Col. Bryan is openly making a fight for the candidate whom he wants elected while Watson, under the pretence that he is a candidate himself, is bushwhacking for Roosevelt. That is the difference between a statesman like Bryan and a poltroon like Watson.

One may get some idea of the South's immense resources from the statement that all past records were broken by the exports of cotton for September, 1904, both as to quantity and value, the total being 410,940,894 pounds, worth $43,742,326. The average price was 10.6 cents per pound. The greater part of the cotton exported was sent to Great Britain.

Penny Damage Suit Will Likely Require Another Day in the Superior Court.

THE PROCEEDINGS YESTERDAY

Number of Other Interesting Cases Continued Until Next Term—Motion to Dismiss Under the Hinsdale Act Overruled by Judge Moore.

The twenty thousand dollar damage suit brought by Mr. B. F. Penny against the W. C., & A. Railroad Company still has the right of way in the Superior Court and the probabilities are that it will not be completed before to-morrow, leaving very little time during the remainder of the term for the hearing of other cases. The big land suit of Mary E. Irving and others against Pembroke Jones and others, involving the title to a large portion of the property known as "Summer Rest," a sound resort on Wrightsville, was set for trial yesterday but it was continued by consent during the morning. The damage suit by William Rembert against the Consolidated Company, which was set for to-day has likewise been continued until the next term. The damage suit of Frank Meier, administrator of the estate of Joseph Meier, against the Consolidated Company which was set for to-morrow also goes over to next court. Still another damage suit which goes over is that of James A. Armstrong against the Southern Railway Co. The plaintiff, while in the employ of the defendant corporation somewhere in Georgia, was injured and he employed Herbert McClammy, Esq., and Hon. John D. Bellamy to bring suit in this county. F. H. Busbee, Esq. of Raleigh, will defend the suit when it comes on for trial. Should the unexpected happen and the Penny suit be finished to-day, the only case of importance that would come up on the calendar would be that of Hugh S. Schwartz against the Consolidated Co. for damages sustained while painting poles for the defendant near Front and Grace streets about a year ago. There are few other cases of interest on the trial docket for the term.

The jury having been empanelled and the pleadings read in the Penny damage suit the afternoon previous, the hearing of testimony for the plaintiff was begun immediately upon the convening of court at 9:30 o'clock yesterday morning. Mr. B. F. Penny, the plaintiff, was first examined, remaining on the stand for an hour and a half and undergoing a very rigid cross-examination by the attorneys for the railroad. The burden of his testimony was that the employes of the defendant company were negligent in not warning him of impending danger when he stepped off the cars and was shot at Leland, and that the same employes laid their company liable when they acted in such a manner as to draw the fire of the negro's pistol. He also told of the extent of his injuries and his incapacity for business since he was wounded.

Dr. C. T. Fort, the physician of Mr. Penny at his present home, Mullins, S. C., was next introduced. He told of Mr. Penny's condition since he had been treating him and of the permanency of those injuries.

Mr. Cyrus S. VanAmringe, who was baggage master on the train at the time Mr. Penny was shot, testified to the circumstances of the affair strongly in the plaintiff's behalf. Mr. Van Amringe's cross examination by Hon. Jno. D. Bellamy, of counsel for the railroad, was the incident of the day's hearing. He sought to impeach the character of the witness by directing insinuating questions to him as to certain articles purchased at his auction rooms from negroes. Mr. VanAmringe was on the stand also for more than an hour and replied in indignant manner to the questions put by Mr. Bellamy on cross examination.

Shortly before the hour for a recess for the day, plaintiff's counsel announced that they would rest. Counsel for the railroad then made a motion to non-suit the plaintiff under the Hinsdale Act upon the ground that a cause of action had not been established by the testimony introduced. Judge Moore said he would hear from both sides on the motion and the railroad attorneys retired for conference. A little later Mr. Rountree said that defendant's counsel would go on with the introduction of their witnesses and they would renew their motion later, if they deemed advisable. The original was then overruled by Judge Moore and an exception by defendant was noted. Eleven witnesses were then sworn for the railroad, including Mr. Louis H. Skinner, Capt. W. L. Harlow, Capt. Haywood Clark, Capt. W. A. Snell and others who were on the train, including the colored railway mail clerk and a colored trainman. Mr. Skinner was first on the stand. He testified that he was not in the employ of the company but was a passenger on the same train and in the same coach with Mr. Penny on the trip over to Leland. He told of occurrences on the train and of the shooting at the station. Mr. Skinner's testimony concluded the day's proceedings and a recess was taken until 10 o'clock this morning instead of 9:30 as usual. The usual instructions to the jurors not to talk among themselves of the case or allow it to be discussed in their presence, was given by Judge Moore.

The jury on the case is composed of the following: H. W. Howell, B. A. Burnett, Jno. C. Heyer, D. A. Penton, G. C. Simmons, E. L. Sleeper, E. L. Davis, G. B. Myers, W. H. Northrop, Jr., S. S. Drew, A. Millinor and J. C. Bordeaux.

VENERABLE WOMAN IS GONE.

Death of Mrs. Julia Adaline Jacobs Removes Highly Esteemed Resident.

On account of the lateness of the hour, the STAR made only a very brief announcement of the death of Mrs. Julia Adaline Jacobs yesterday morning. The soul of Mrs. Jacobs took its flight at ten minutes to two o'clock at her home, No. 409 Princess street, this city, after an illness of some days with a severe type of tonsilitis. She was the relict of the late Benjamin Justin Jacobs and was born in New Hanover county in that part of it now known as Pender county, Feb. 23nd, 1822. She was, therefore, in the 83rd year of her age and was one of Wilmington's oldest and most highly esteemed residents. For 64 years, or more generally speaking, since her marriage she had lived on Princess street, where the present residence stands. She was married to Mr. Jacobs on Dec. 24th, 1840, and for 52 years husband and wife lived happily together. The union was blessed with ten children, three of whom survive her, viz: Mrs. James F. Post and Mrs. E. G. Parmele, of this city, and Mr. B. J. Jacobs, who recently removed to Charleston, S. C. She also leaves twelve grand children and two great grand children.

Mrs. Jacobs was a woman of rare qualities of mind and heart; always ready to extend a helping hand to those less fortunate than herself, and continually exercising the charity that never faileth. She was generous to a fault, and in her more active life was ever ready to do a good deed and minister to the suffering. Her loyalty to her friends, her family and her church were the leading characteristics among many virtues. She was a member of old Front Street M. E. church and Grace Methodist church, extending over a period of 65 years. She leaves as a priceless heritage to her children the memory of duty well performed, a sterling Christian character, a faithful wife and a most devoted mother.

The funeral will take place from Grace Methodist Episcopal church this morning at 11 o'clock, thence to Oakdale Cemetery.

LOCAL MARKET AND SHIPPING.

Two British Steamers Arrived—Cotton Advanced Ten Points.

Cotton receipts yesterday were 3,388 bales, against 1,200 same day last year. The New York spot market advanced ten points yesterday, closing quiet at 10.05.

British steamers "Skidby," 2,421 tons, from New York, and "David Mainland," 1,201 tons, from Charleston, arrived yesterday for cargoes of cotton from Messrs. Alexander Sprunt & Son.

Schooner "Thos. A. Ward" arrived yesterday from Baltimore with cargo of fertilizers for the Carolina Central warehouses.

Seaboard Officials Here.

President J. M. Barr and Chief Engineer A. Sedden, of the Seaboard Air Line, were here yesterday in Private Car No. 2 for a conference with Mr. E. B. Williamson, local agent of the system in Wilmington. The officials came in on the noon train and returned in the afternoon, spending several hours inspecting the terminals and improvements here. The yard facilities in Wilmington have recently been very much enlarged and other improvements are going on. The road bed between Wilmington and Hamlet is also being brought up to the standard and it was for the purpose of looking over all this work that President Barr and his chief engineer were here yesterday.

REGISTRATION LIGHT

General Apathy Among Voters As to Requisite for Voting in General Election.

THIS WEEK IS THE LAST.

Removal from One Precinct or Ward to Another Causing Misapprehension as to Necessity for Registering. Explanation to Democrats.

Old "General Apathy" appears to be in command of a large number of New Hanover voters, who have not registered for the general election to be held in November. The registrars say that very little headway has been made in recording new names on their books and that there are many who have become of age or have removed to another precinct or ward since the last election. There are likewise many who did not register last time, though many of them, because of subsequent registrations for city elections, think that their names are on the books. It is a matter for the individual voter and one which should be attended to at once. This is the last week of registration and next Saturday night it will be "forever too late." The books will close at sundown on that day.

Those who have not registered and desire to do so can register any day this week. The registrar, however, is required to be at the voting precincts only on Saturday. Other days he may be found at his place of business or at his home. The registration thus far has been very light except for names transcribed from the old books.

A gentleman who is well versed in election and registration affairs, gives out this interview:

"There does seem to be some misunderstanding and confusion about those who are required to register for the approaching election. Every voter who changed his residence before July 8th of this year must register in his new precinct to which he moved. This applies to all voters, whether they heretofore registered under the grandfather clause or under the educational clause.

"No certificates of transfer from one county to another county, nor from one precinct to another precinct in the same county, are required. If a voter has changed his residence since July 8, 1904, he must vote in his old precinct from which he moved.

"A single man registers and votes in the precinct in which he sleeps; a married man in the precinct in which his family resides.

"Many voters seem to think that because they registered under the grandfather clause for the city election they are entitled to vote in the approaching election without re-registering. This is a mistake. Registration for the city election is entirely separate and distinct from the general, county, State and National registration and no person can vote unless his name appears on the county registration books. As there was an entirely new registration two years ago, no person can vote on November 8th unless he registered two years ago, or registers before Saturday night of this week."

GAVEL FROM SPANISH SHIP.

Veteran at Portsmouth Navy Yard Presented Token to Stonewall, K. of P.

A pretty little incident of Monday night's regular meeting of Stonewall Lodge No. 1, K. of P., was the presentation, through Mayor Pro Tem. W. H. Yopp, of a handsome gavel made from a piece of the main rail of the Spanish cruiser "Reina Mercedes," of Cervera's fleet, which was captured by Admiral Schley off Santiago during the Spanish-American war. The contribution of the gavel is by one of the oldest Pythians in the world, Past Chancellor F. W. Langley, captain of the guard at the Portsmouth navy yard, whom Mr. Yopp met there recently and by whom he was shown many courtesies. An attachment grew up between the two Knights and Mr. Langley promised Mr. Yopp the gavel for his lodge at Wilmington. It arrived a few days ago and with an appropriate address, paying due respect to the donor, Mr. Yopp presented the little token Monday evening. It was received in a graceful speech in behalf of the lodge by Chancellor Commander W. F. Corbett.

Mr. Langley's distinction as one of the oldest Pythians in the world comes to him by the fact that he is a member of Franklin Lodge No. 3, of Washington, D. C., and helped to instal Alexandria No. 1, the first outside of Washington. At the Supreme Lodge in Louisville recently Mr. Langley was introduced by Past Supreme Chancellor Edward Dunn, of his lodge, and he received many attentions. The gavel presented to Stonewall will be handsomely mounted in silver and suitably inscribed.

Mr. McLaurin's Condition.

The condition of Mr. John McLaurin, who was stricken with paralysis Monday morning, was about the same yesterday. He spent a fairly comfortable night and appeared some better during the morning. However, he has not regained his speech and is able to help himself but little. There were many anxious inquiries about his condition yesterday, attesting the very high esteem in which he is held.

Friends in the city have received invitations bearing the following announcement: "Mrs. Dr. K. K. Powers invites you to the marriage of her daughter, Mary Simpson, to Mr. James Felton Head, Wednesday afternoon, November ninth, nineteen hundred and four, at five forty-five o'clock. PRETTY "DOLLY VARDEN" TO-NIGHT.

Comic Opera That Has Delighted Large Audiences Everywhere This Season.

"None better," has been the universal criticism of "Dolly Varden," which comes to the Academy to-night. In the presentation of this well known comic opera Wilmington people are offered a rare treat.

The piece is filled with tuneful solos, duets, quartettes and choruses, while the book is humorous without being vulgar. It has been aptly termed a Dresden China Opera.

Mr. F. C. Whitney firmly believing the public want, approve of and appreciate comic opera constructed on legitimate lines and shorn of all broadness, three years ago produced "Dolly Varden" at the Herald Square Theatre, New York, where it ran to crowded houses for over six months and has enjoyed enormously successfully engagements in all the principal cities of the United States ever since.

"Dolly Varden" is dainty, picturesque, refined and has been aptly termed a Dresden China Opera, proving conclusively that in opera as well as drama vulgarity is not a necessary essential for success.

Seats for to-night's performance are now on sale at Plummer's.

Boy Killed Near Cerro Gordo.

A young son of Rev. Mr. Stanley, a Baptist minister of Cerro Gordo, Columbus county, was almost instantly killed by the accidental discharge of the gun of Beecher Bullard, a companion with whom young Stanley and his brother were squirrel hunting Saturday afternoon. The boys had been seated on a log waiting for their dog to "tree." Suddenly they heard a yelp in the direction of a swamp and they ran as hard as they could to get a first shot. While they were running the gun of young Bullard was in some way discharged, the entire load taking effect in the back of one of the Stanley boys.

Rev. H. T. Graham's Resignation.

Yesterday's Fayetteville Observer: "Fayetteville Presbytery met in the Presbyterian church here this morning for the purpose of receiving the resignation of Rev. H. Tucker Graham. Mr. Graham tendered his resignation as pastor of the Fayetteville church, and Mr. T. J. Whitted, representative of the church, announced the concurrence of his church in asking for the resignation. The relation was therefore dissolved to take place December 1st. Dr. Vardell was directed to preach to the church the first Sunday in December and declare it vacant. Rev. H. T. Graham was dismissed at his own request to the Presbytery of West Hanover, to become pastor of the Farmville, (Va.,) church."

New Freight Depot.

Fayetteville Observer: "It is rumored here to day that the A. C. L. R. R. Co. is preparing to erect a large and handsome new freight depot several hundred feet south of the present one. It will be remembered that the railroad company started to build a new depot just north of Hay street a few years ago, but owing to a disagreement about the matter with the city, abandoned it. This new movement on the part of the Atlantic Coast Line Company is a welcome though not unexpected one."

ONE OF THE VERY GRANDEST.

"Babes in Toyland," With Magnificent Scenic Effects, by Eighty Odd People.

Wilmington theatre-goers rarely have the opportunity of witnessing a production so magnificent as will be that of "Babes in Toyland," which comes to the Academy to-morrow night. The sale of advanced seats commenced at Plummer's yesterday morning and the indications are that a large and fashionable audience will be present. The Raleigh News and Observer of yesterday says of the production:

"Babes in Toyland delighted a large audience at the Academy last night. It was hung on a plot so tenuous as to suggest an after-thought to the panoramas of pretty girls, of picturesque tableaux of merry music and happy jests that made the audience sit back comfortably and laugh with the very joy of the pretty foolishness.

"The cast was one that was trained to perfection and the scheme of the extravaganza was carried out with wit and detail.

"Possibly the absurdly sweet "Jane," carried off the palm, but "Mary, Mary quite contrary," with her fine conception of the nursery role was a close second.

"The play cannot be criticized. It was tuneful, acted with spontaneity, bright as a diamond. The girls were shapely and vivacious, the men—at a disadvantage in such a company—earnest and enthusiastic in their work, the mechanical features beyond reproach.

"The "Babes" were winning and wholesome, the entire performance one of those airy things which preach the goodness of joy.

"The management made a hit with both play and company and, if they come again, the first seats will be taken by those who will go for a second time."

HARD TO RUB OUT.

Republican National Chairman George B. Cortelyou says that "neither by pledge or threat" has he procured money from the trusts for the purpose of electing Roosevelt.

The trusts subscribed to the Republican campaign fund just the same, knowing on which side their bread is buttered. They didn't have to have a pledge or a threat. The trust managers have got sense enoug to draw an inference as well as a check. To send after them a collector in the person of the man whose business it was to collect information and make publicity of it and secure grounds for prosecution of trusts, smacks of an unholy intimation to them that they had nothing to fear. If it wasn't that it has all the appearance of blackmail.

If Roosevelt can't see it that way, the people ought to know enough to give him a vacation for hard study with a view to learning enough to know when a thing looks shady. No denials from Cortelyou or anybody else will avail to rub out the black spot, where a man exercises a little intelligence.

ALL OVER BUT THE SHOUTING.

Judging from the claims made at the headquarters of both the Democratic and Republican parties, it is all over but the shouting. The arrogant and boastful Republicans can hardly conceive how their money bags campaign can be beaten, but all the indications on the surface show that they are alarmed.

We confess no little admiration for the optimism which prevails at Democratic headquarters in New York. The managers have been doing lots of work and saying little, but they now boldly claim Parker's election and give the reasons why. Says the Philadelphia Record, in speaking of this confidence among the Democrats:

Judge Parker's election by a considerable majority in the Electoral College is claimed by the Democratic National Committee, which is not afraid to descend into particulars and show in detail what its information indicates regarding the situation in various States. Of course, the Republicans are also claiming that success is assured to them. The claim of the Democrats, however, are entirely reasonable. Most of the complaints of apathy come from the Republicans; the local fights in half a dezen States are helping the Democrats. Republican opposition to imperialism was indicated four years ago, and it has been rising since, and the Republican party has never in recent years been so seriously divided on the tariff as it is to-day.

Mr. Roosevelt is not popular with the politicians of his party, and that he is distrusted by many of the members of the party was frankly admitted by representative Republicans, Mr. Root among the number, before his nomination, and by The Indianapolis News and The Chicago Inter Ocean since. Judge Parker's few addresses have commannded the respect of thinking Republicans and the enthusiasm of Democrats.

The Democratic party was united and successful in 1892, and it is again united. Mr. Bryan and Messrs. Clevelend, Carlisle and Olney are supporting him heartily. It is idle for any man to say that he knows the future. But the present indications are at least as favorable for the Democrats as they were twelve years ago, and in most respects they are more so. The Democratic National Committee knows as much about the election as any set of men can, and there is no doubt of its sincerity in declaring that a Democratic victory is impending. Any judicially minded person will admit that this conviction is entirely reasonable.

In New York on Monday an official statement was given out at Democratic headquarters, embodying the results of the elaborate canvass of the doubtful States by the National Democratic Committee. The statement claims for Parker a majority of 264 electoral votes, not counting Illinois nor Wisconsin, which are classed as doubtful, or 25 more votes than the necessary 239 to elect.

Leaving out Wisconsin and Illinois, the Democratic managers claim 26 States for Parker, including New York, New Jersey, Connecticut, Maryland, Delaware, West Virginia and Indiana. The following table shows at a glace the claims of the National Democratic Committee:

CURRENT COMMENT.

—— There is no doubt that Grover Cleveland belongs to the battleship class.—Baltimore Sun.

—— Officials of the Department of Commerce and Labor insist that the beef trust inquiry "has been vigorously prosecuted." We had about concluded that the inquiry had been prosecuted, convicted, and sentenced to solitary confinement.—Washington Post.

—— There does not appear to be much apathy in Greater New York. The registration of voters shows a gain of 48,208 over the remarkably heavy registration of 1900. This looks well for Parker and Davis It is in the great metropolis that the vote is cast which holds the State fast to Democracy.—Philadelphia Record.

—— If the 10,000 Russians who were killed in the battle below Mukden had met death on the Siberian railway what a lot the American people would have had to say about the incompetency and graft of the Russian bureaucracy. Yet last year, according to official statistics, there were 9,840 persons killed on American railways and 76,553 others were injured.—Kansas City Star.

—— A special dispatch to the Philadelphia Record says that "if he will accept it, the position of chief of police of Richmond is open to Gen. Fitzhugh Lee, who was Major General in the Confederate army, Governor of Virginia, Consul General to Cuba, Brigadier General in the Federal army during the Spanish-American war," etc., etc. Gen. Lee has not "made known his views" in the matter, we are told, but we hope that he will decline the appointment.—Charleston News and Courier.

Dr. PIERCE'S FAVORITE PRESCRIPTION FOR WEAK WOMEN.

THE ATTRACTIVE GIRL.

Much has been written about "the American girl" and her reasons for being preeminently the most attractive girl in the world. In bringing up girls mothers can't be too careful to let their daughters develop all their natural charms to the utmost.

The crucial epoch of a woman's life is the change from maidenhood to womanhood. It involves the whole body and manifests itself in the nervous disposition at this time.

Nervous or sick women are afforded the opportunity of a lifetime, for the makers of Dr. Pierce's Favorite Prescription now offer *$500 reward* for women who cannot be cured. Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I cannot praise your medicine highly enough," writes Mrs. Jennie Hippenhamer, of Huntertown, Indiana. "I began taking Dr. Pierce's Favorite Prescription and took it steadily for six months. I was not once sick at stomach, never vomited once. Took the 'Favorite Prescription' three times a day and when in severe pain took an extra teaspoonful of medicine which checked the pain. I felt pleasant all the time and did not get nervous as I used to. When my baby girl came last August she was healthy. She is now eleven months old. Am thirty-eight years old and never got through so easily in all my life. Why should women suffer when they can get through so easily? I am able to do quite a washing and ironing which I could not do for eight years before."

As a tonic for women who are nervous, sleepless, worn-out and run-down, "Favorite Prescription" is unequaled.

For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmless, yet sure. No other pill can compare with them.

COTTON MARKETS.

By Telegraph to the Morning Star

NEW YORK, Oct. 25.—The cotton market was active and irregular. It opened steady at a decline of two points to an advance of three points. Following the call it showed an advancing tendency on reports of more or less general and killing frosts in the eastern belt. But after some of the smaller shorts had covered, the anticipation that the ginners report at midday would furnish a basis for bearish conclusions became a more important factor and the market declined. The ginners' report was issued at one o'clock and proved disappointing to the bears. It reported an increase of about 45 per cent. and did not indicate nearly so great an increase for the entire belt as had been expected. The bears took the ground that the report of the Census Bureau had covered too small a proportion of the belt to be of any value, but there was considerable covering after it was issued, and the market during the afternoon ruled generally firm. The close was steady at an advance of nine to thirteen points. Sales were estimated at 300,000 bales.

TELL YOUR NEIGHBOR ABOUT WINE OF CARDUI

Hundreds of thousands of women suffer with irregular periods. Thousands suffer bearing down pains. Others are nervous and have all manner of pains in the abdomen, back, neck, limbs and head. WINE OF CARDUI CURES ALL THESE TROUBLES.

There is hardly a home where some woman is not the victim of female weakness in some form. In your home there is a sufferer. There is another in your neighbor's home.

Wine of Cardui will cure you, your sister, your mother or your daughter. It will cure your neighbor.

Over 1,500,000 suffering women have been cured by Wine of Cardui. Hundreds of thousands of well and happy women have their health because some interested friend took them a bottle of Wine of Cardui or told about what this wonderful woman's tonic would do.

Will you not follow Mrs. Smithers' example by giving Wine of Cardui a trial and then tell other sufferers of your cure?

1603 Maple St., LOUISVILLE, KY., June 20, 1904.

I feel it my duty to thank you for the good Wine of Cardui has done for me. I was nervous, worn-out and on the verge of a general break-down. Providence directed one of your little books my way and I bought a bottle of Wine of Cardui. I had taken it but three days when a decided change was perceptible. What it did for me it will do for any other woman, and I never fail to take advantage of an opportunity to recommend it as a reliable and sure cure. MRS. BESSIE F. SMITHER.

Have You THESE SYMPTOMS?

There's Danger Ahead.

If you have sharpe pains across the small of the back, if there is any irregularity in the urine, if it is scanty or profuse, or difficult to retain, then your kidneys are out of order and should be given prompt attention. There is no disease so surely fatal if neglected. Diseases of the bladder, such as inflammation, gravel or stone in the bladder, diabetes, and finally uremic poisoning, usually begin in a very slight way at first, often causing no particular inconvenience.

Stuart's Gin and Buchu is a reliable remedy for any form of kidney and bladder diseases. It has been given the severest tests for thirty years, and has never failed to relieve the worst case and stay the fatal progress of the disease. If you have the slightest smyptom of this disease, you should lose no time in beginning the use of this remedy. One bottle will convince you of the great benefit it will render. Stuart's Juniper and Buchu Tablets is the same remedy in tablet form for those who prefer it in that shape.

WINTER'S APPROACH

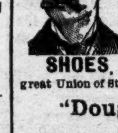

A day of sunshine now and then, but these frosty mornings admonish us that sable Winter is almost here. That suggests the comforts and satisfaction of one of our modern heaters. We have them this year of every shape and kind—just the one to suit. Or, perhaps, it's a cooking stove or range. We have those too, And the point we are making for them all is that they furnish an even maximum of heat with the greatest economy of fuel.

We are yours just now for stoves and ranges, but all the time for hardware and agricultural implements. Let us serve you.

SPIRITS TURPENTINE.

— At Raleigh Saturday evening in a negro billiard saloon, Ed Hight struck Luther Ellerbee, both colored, with a billiard cue, causing death. Hight fled.

—Raliegh Post: It is no figure of speech to say that the cotton mill communities of North Carolina would like to see some of the prosperity that the Republican spellbinders are spouting about.

— Lumberton Argus: Can you conceive of it? Nearly three hundred young lady boarders at Red Springs Seminary! Truly has this institution surpassed even the most extravagant expectations of its founders.

— Raleigh Times: The farmer who is out of debt, and a large per cent of them are, is not so much in need of a place to deposite his cotton. A few bales of cotton edged up on rails, with planks to keep the rain off, make a very attractive front yard ornament.

— Lumberton Argus: — We have read with interest the bill of complaint against the receiver of the Carolina Northern Railroad, for mismanagement, collusion, and fraud. There is a big fight ahead, and the present management has appearances against it.

— Secretary Bruner, of the State Agricultural Department, has returned to Raleigh from the exposition in St. Louis, where he has been on duty for over a year. He says North Carolina won 78 awards, five grand prizes on tobacco, mining and forestry, twelve gold medals, twelve silver medals, the others being bronze.

— The Union Guano Company, organized by Winston-Salem capitalists and incorporated under the laws of North Carolina, will establish two large independent fertilizer plants, one in Winston-Salem and the other in Norfolk, Va. The gentlemen behind the new concern say they will have their plants in operation in time for the spring trade and that the Virginia-Carolina Chemical Company will not have any interest in the enterprise.

— Kinston Free Press: In the Repose items of the Free Press last week was one about a number of gourds raised on one vine at Mr. Parker Howard's, the number being 75 and the length of the vine 75 feet. Mr. Brantley Canady, of Deep Run, tells us that that ain't nothing; that he counted on one vine at his home 213 gourds and that the vine was 92 feet as it lay in the cornfield without being straightened out.

— The force of negroes employed by the Southern Railway Company on its big coal chute at the Spencer yards went on a strike unceremoniously Saturday night, and it became necessary to transfer a relief force from Charlotte to that point in order to coal and equip the large number of engines required to pull the outgoing passenger and freight trains. The cause of the strike, in which only a small number of men were involved, is said to have been some dissatisfaction with reference to the wages received. The coal chute at Spencer is said to be the largest on the Southern system.

Charlotte News: The news of Colliers Weekly on the negro question and also its present attitude towards South, are to be commended. While supporting Mr. Roosevelt, it admits that the course of the accidental President upon this question has been a great blunder and is liable to do still greater harm in the future. This is just the point which The News and other southern papers have been striving to make the northern press understand. But the light is gradually breaking upon them and one by one the leading northern papers which have hitherto been so negro-wise and negro-ised are throwing up the sponge and frankly admitting that Southerners not only know more about the race problem, but can do more towards its settlement than any other people. What is a still more hopeful sign, the North is adopting more and more a hands-off policy, which is all that the South has ever asked. If Judge Parker delivers us from four years more of Teddy, the situation will be better than at any other time, since the Rough Rider meddlesomely took a hand in our domestic troubles.

— Raleigh Post, Oct. 25th: The October term of court for the trial of civil cases convened here yesterday, Judge B. F. Long, of Statesville, presiding. Judge Long has begun by setting a new precedent here for the bench in dealing with divorce cases. His honor is evidently not an advocate of lax marital ties and when the jury yesterday, in quick succession, decided for the plaintiff in three suits for divorce Judge Long announced that he would not sign any decree until he could investigate each case for himself. The law, it appears, gives the judge this discretion in divorce cases and Judge Long proposes to use it. * * All the parties are white. The first case of the three mentioned above, that of McDonald, is one with a history. Paul McDonald, of Harnett county, was charged with the betrayal of a young woman and fled the State; a reward was offered by Governor Aycock for his capture, McDonald's picture was published with the governor's proclamation, and McDonald was finally apprehended in Charleston, South Carolina, where he was employed as a street car conductor. He was brought back to the scene of his misdoing and married the young woman, but he abandoned her two days later and is now in parts unknown.

Testimony of a Minister.

Rev. Jno. S. Cox, of Wake, Ark., writes: "For twelve years I suffered from yellow jaundice. I consulted a number of physicians and tried all sorts of medicines, but got no relief. Then I began the use of Electric Bitters, and feel that I am now cured of a disease that had me in its grasp for twelve years." If you want a reliable medicine for Liver and Kidney trouble, stomach disorder or general debility, get Electric Bitters. It is guaranteed by R. R. BELLAMY, druggist. Only 50c. †

What it Really Means

THIS trade mark in red and white is on each end of the air tight packages of Biscuit, Wafers and Crackers baked by the National Biscuit Company.

It means that the contents of the package on which it appears are of the very highest quality; that they are made of the best materials and baked by skillful bakers in scrupulously clean bakeries; that the package is air tight and moisture proof.

It is quality that has made these goods the chief item on the Nation's bill-of-fare. For example try Social Tea Biscuit and Oysterettes

SOCIAL TEA BISCUIT

Just the thing to offer with an afternoon cup of tea—or chocolate—or coffee. In fact, they're good to eat most any time just for the pleasure of it. Sweet and slightly flavored with vanilla.

Oysterettes

Give added zest and relish to every kind of soup. Crisp and flaky, with just a touch of salt. And always fresh—because always sold in airtight packages.

NATIONAL BISCUIT COMPANY

—Capt. Hitch, who commanded the State militia at Statesboro, has been dismissed from the service by the Governor of Georgia. This action will have a good effect not only in that State but throughout the South. There will be no place for tin soldiers in the militia hereafter. —Columbia Record.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere, seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

WEDNESDAY MORNING, OCT. 26.

THE HARD YARN SPINNERS.

Meeting in Charlotte of Cotton Mill Men. Substantial Advances in Prices—Advantages of Co-operation.

By Telegraph to the Morning Star.

CHARLOTTE, N.C., Oct. 25.—A meeting of the hard yarn spinners of the South was held here this afternoon. Nearly five hundred thousand spindles were represented. The object of the meeting was to review the state of trade conditions since the organization meeting September 27th.

The greater part of the time of the meeting was consumed in a discussion of the report of the advisory committee, embracing a number of recommendations looking to further promoting the interests of the spinners. It was pointed out that substantial advances in prices had already been secured, through the co-operation of the spinners, who were urged to stand by the organization and assist in bringing about further reforms and improvements.

J. P. Wilson, of the Louise Mills, Charlotte, resigned as a member of the advisory committee, and Charles Iceman, of McColl, S. C., was elected to succeed him.

Prices of hard yarns have increased from 2½ to 3 cents a pound since the original meeting held in this city on September 27th, and without exception every spinner was disposed to give credit to that conference and the action taken for the stimulus. Several spinners did not hesitate to say that they had made good sales in accordance with the new schedules, and all agreed that the trade was recovering from its recent state of demoralization. The spinners finally approved the present and original plan for a permanent advisory committee to meet weekly, study market conditions, and fix the schedule of prices for Southern mills. It is expected within a few months that every mill in the Southern States will be in the association and bound by its iron clad agreement of prices.

An official statement issued by the advisory board to-night says that the report of the board to the meeting was received with much interest, and the report together with the course pursued by the board in its several weekly meetings was unanimously endorsed and approved. The statement then continues,

"The general situation was thoroughly reviewed and evidence conclusive presented showing that the co-operation during the past several weeks by the hard yarn spinners has resulted in stimulation of formerly demoralized conditions of the hard or weaving yarn business, not only in the Southern States but in the New England States as well."

The schedule of prices issued on the 18th instant beginning with 4-2 ply at 16½c. and running to 40-2 ply at 28c. was reaffirmed.

COTTON GINNED THIS YEAR.

Report of the Census Bureau Up to October 18th.

By Telegraph to the Morning Star.

WASHINGTON, Oct. 25.—A bulletin issued to-day by the Census Bureau gives a summary of the reports on cotton ginned in the United States in the present year up to October 18th. The reports cover 96 counties and show a total of 426,883 running bales, as against 293,669 running bales reported from the same counties for the same period last year. The counties covered are in the States of Alabama, Arkansas, Georgia, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Texas, Tennessee and Virginia. Georgia makes the largest showing with thirty-four counties and 196,744 bales, as against 117,139 bales last year. The number of ginneries from which reports were received is 2,411 as against 2,342 for 1903. A comparative statement for 1902 shows that up to October 18th of that year a total of 3,839,620 bales had been ginned. The total number of counties from which ginning was reported in 1903 was 812, and the number of ginneries 27,723.

NO FURTHER DISTURBANCE.

But Militia Are Still on Guard at the Town of Berkley, Va.

By Telegraph to the Morning Star.

NORFOLK, VA., October 25.—A heavy patrol was kept until after daybreak to-day by the Norfolk militia on all thoroughfares of Berkley, Va., where George W. Blount, a negro fish dealer and political leader, was taken from the jail and murdered yesterday. The town remains under martial law. At a conference to-day between Mayor Allen and Col. Higgins commanding the militia, it was decided that it would be necessary to keep the troops on duty until after the funeral of the murdered negro. The whites, and especially the women of Berkley, are fearful of a race riot and the white citizens are planning to establish vigilant committees for night patrol duty after the soldiers leave. The coroner says he has not sufficient evidence yet to justify swearing out warrants against any one.

Commonwealth Attorney R. C. Marshall and Coroner Morgan will conduct a joint investigation of the affair. Blount was buried this afternoon from the colored church, from which his fellows bore his body to the grave. There was a large assemblage, but no disorder. The inquest into the killing was adjourned until Friday.

GAUTEMALAN ANTS.

Government Officials Deny Reports That They Are a Failure.

By Telegraph to the Morning Star.

HOUSTON, TEXAS, Oct. 25.—Dr. T. B. Galloway has received a telegram from the Agricultural Department at Washington, asking if it were true that he had given out an interview stating that the Gautemalan ants were a failure as boll weevil enemies. Dr. Galloway promptly answered that the interview was not true; that Collins and Goll would go to Gautamala as originally intended and further study the ants in their native habitat. Dr. Galloway has just returned from Victoria, where he looked after the ants and expressed himself as satisfied with the work now being done with them by Dr. Webber and Dr. Hunter.

THE DEPLORABLE NORTH SEA AFFAIR.

Russian Emperor Cables King Edward Expressing Deepest Regret at Occurrence.

REPARATION WILL BE MADE.

Apology Will be Given With Compensation for Sufferers and Punishment for Officers Responsible—Feeling in England Allayed.

By Cable to the Morning Star.

LONDON, Oct. 25.—The inevitable delays of diplomatic procedure appear to retard a complete and satisfactory settlement of the acute differences between Great Britain and Russia arising from the deplorable North Sea affair. King Edward has received from Emperor Nicholas himself a cablegram expressing the deepest regret and a practical acknowledgment that Great Britain's peremptory note will meet with a reply conceding every demand for an apology for the act of the Russians against the British flag, compensation for sufferers, and punishment for the officers responsible for what is everywhere conceded to have been a gigantic blunder, and the Russian ambassador to the Court of St. James has expressed to Foreign Minister Lansdowne his sorrow and sympathy. These developments, which came late in the day, have allayed to some extent the resentment in the public mind, and the admiralty to-night gave evidence of its appreciation of the necessity of proving that it is prepared actively to support the position of the people of Great Britain and fulfill the expectations of the world when it issued the following statement:

"On receipt on October 24th of the news of the North Sea tragedy, preliminary orders for mutual support and co operation were issued as a measure of precaution from the admiralty to the Channel, Mediterranean and Home fleets."

The day has been one of the busiest in twenty years in diplomatic circles here. The Russian ambassador, who only reached London shortly before midnight Monday, was an early caller at Lansdowne House and had a long interview with Lord Lansdowne, after which the foreign minister drove to Downing street and conferred with Premier Balfour and others, and for the rest of the day was occupied with a mass of matters pertaining to the affair. Almost momentarily the public expected some definite announcement of an official nature, but late this evening the foreign office announced that no further statement would be issued tonight. It is understood that this is because it is considered that it would be unwise, in the present state of public feeling, to make any intermediate proclamations concerning diplomatic proceedings in view of Great Britain's announcement to Russia that the matter would not brook delay.

Count Benkendorff, the Russian ambassanor, was occupied until late to-night at the embassy with a mass of cipher dispatches, and it was announced at the embassy that it would be physically impossible to prepare a formal reply in such a short time.

While great Britain is stirred to its depths there has not been the slightest evidence of a repetition of the rowdyism of last night, which is condemned on all sides. The suggestion that Ambassador Benkendorff's visit to Lansdowne House instead of Downing street, was due to fears of mob violence, is indignantly denied at the Foreign Office and at the embassy. In fact, there was not the slightest sign of any gathering of a hostile crowd at the Foreign Office, although the police precautions were most thorough. Count Benkendorff himself discussed the incident of last night as trivial and did not appear to consider it worth notice. Popular appreciation of the situation, however, was evidenced when King Edward appeared in public to-day. He was greeted with more than usual enthusiasm on account of the decided tone of his telegram to the mayor of Hull on Monday. The speeches of members of the cabinet and of the House of Commons to day in different parts of the country voice the sentiment of Great Britain, and the spirit in which the utterances were met shows that for the moment party differences have been laid aside and that the country is solidly behind the government.

Lord Selborne, at the Pilgrim's banquet to-night, denounced the Dogger Bank affair in the most outspoken terms yet heard from a member of the cabinet "as an inexcusable outrage" and "a terrible blunder," which would be impossible in either the British or the American navy.

Colonial Secretary Lyttleton, too, in another place, spoke in plain terms, saying that it was impossible to view the affair as other than the result of murderous intention or wicked negligence.

The post mortem examination of the bodies of the victims of the Dogger Bank affair was held to-day at Hull. The proceedings were purely formal and no official announcement was made; but it was stated positively that both of the dead men received wounds inflicted by both machine guns and a larger shell.

ST. PETERSBURG, Oct. 25, 7:02 P. M. Foreign Minister Lamsdorff, upon his return from visiting Emperor Nicholas at Tsarskoe Selo this afternoon, drove direct to the British embassy where he conveyed to Ambassador Hardinge on behalf of the Emperor a message for King Edward and the British government, expressing the Emperor's profound regret at the news of the North Sea incident and stating that the Emperor had not yet received a report from his officers on the subject, but asking the British ambassador nevertheless to convey the assurance that fullest reparation would be made to the families of the sufferers.

Later, the ambassador went to the Foreign Office and formally presented a copy of his instructions. The note was couched in a moderate but firm tone. The note stigmatizes the act as inhuman, injustifiable and deliberate, but makes no direct demands, reserving them pending the receipt of Russia's explanation. Neither does it place a time limit upon the response. The note recites the circumstances of the affair, saying that a fleet of steam trawlers, carrying the established lights, was approached by the Russian squadron which threw search lights upon the vessel and then deliberately altered its formation. One vessel was sunk, two fishermen were killed, many were wounded and several vessels were missing after a bombardment of the fishing vessels, which lasted for a considerable time. The squadron then sailed off, leaving a vessel of small tonnage, which remained on the spot for six hours.

The note points out that the indignation of the British people, heightened by the inhuman conduct of the commanders of the warships in abandoning the sinking crippled trawlers, was further emphasized by the failure of the smaller warship to offer or render any assistance, although it was impossible for it during all that time to have mistaken the true character of the fishing vessels.

The note concludes with the statement that the British government is awaiting Russia's explanation of this unjustifiable act, pending the receipt of which it reserves its demands.

OPPOSING ARMIES ARE STILL INACTIVE.

Gen Kuropatkin Appointed Commander-in-Chief—Japanese Casualties—The Russians Purchase Chile's Navy.

By Cable to the Morning Star.

ST. PETERSBURG, October 25.—An imperial ukase, dated October 23rd, appoints General Kuropatkin commander-in-chief of the Russian army.

A dispatch has been received from General Kuropatkin announcing that there was no fighting yesterday between the opposing armies.

Japanese Casualities.

TOKIO, October 25, 7 P. M.—Field Marshal Oyama reports that the Japanese total casualities were 15,879 officers and men at the battle of Shakhe river.

Purchased Chilean Navy.

ST. PETERSBURG, Oct. 25, 8:25 P. M.—A story is current here that Russia has purchased the Chilean navy, which will join the Russian second Pacific squadron at the Azores islands. According to the report an infraction of Chilean neutrality will be avoided by transferring the ships to Turkey for which the Porte will receive $2,000,000 from Russia. While the story receives some credence, it is denied in responsible quarters.

Japs' Supplies Burned.

CHE FOO, Oct. 25.—A junk which arrived here to-day from Antung, on the Yalu river, reports that eight Japanese warehouses, containing rations, clothing, ammunition and the prizes captured at the battles of the Yalu, were burned recently; the fire lasting two days. Incendiarism is suspected. The Japanese officers who were responsible for the care of the buildings committed suicide.

STANDARD OIL COMPANY.

Alleged False and Misleading Statements Denied by Directors—Is Interested Only in the Petroleum Trade.

By Telegraph to the Morning Star.

NEW YORK, Oct. 25.—S. C. T. Dodd, of counsel for the Standard Oil Company, authorized to-day the following statement:

"In view of the many false and misleading statements from various sources, the directors of the Standard Oil Company deem it advisable to state to the company's shareholdors and the public that neither now nor at any time has the Standard Oil Company or any of its constituent companies been interested in any business not directly related with and necessary to the petroleum trade. It would be almost impossible to designate in this denial the different classes of business with which irresponsible parties have coupled the Standard Oil Company's name; but it may not be amiss to specify copper, steel, banks, railroads and gas (other than natural gas) as being most prominently mentioned. With none of these affairs has the Standard Oil Company been at any time connected. Individual members of the Standard Oil Company have been and are interested as individuals in various enterprises, but this is entirely outside of the business of the Standard Oil Company, which is oil alone, unaffected by other interests in which its stockholders may invest. Neither is it true that the Standard Oil Company, John D. Rockefeller or any officer of the Standard Oil Company, has taken part in securing the nomination of any of the candidates for office, as is so positively stated. Furthermore, it is entirely untrue that there is any "Standard Oil party" banded together for speculation in stocks as is so commonly charged. The name of Standard Oil Company is frequently used by designing persons in the manipulation of stock markets, but its use is unwarranted.

The Standard Oil Company departs from its usual custom in making this denial for the reason that statements being made at this time by newspapers, magazines and sensational public speakers, appear to be unusually mendacious, and may, to a great extent, mislead the public."

SITUATION IN INDIANA.

W. J Bryan Says He is Confident of a Democratic Victory There.

By Telegraph to the Morning Star.

NEW YORK, Oct. 25.—A statement from Wm. J. Bryan of his impressions during his speaking tours in Indiana, as expressed in a letter received here, was issued at Democratic National headquarters to-day. Mr. Bryan is quoted as saying:

"So far as I can judge from the size of the crowds and the interest manifested, and the expressions of the people, the Democrats of Indiana are ready for election day. There will be no considerable defection among the silver Democrats of the State. If I can judge from what I have seen in the sections I visited, I take it for granted that every gold Democrat who has not gone over to the Republican party permanently will support the ticket. I leave Indiana with hope and confidence of Democratic victory."

SHOT BY A NEGRO.

Passenger Train Conductor Killed Near Little Rock, Ark.—Lynching Likely.

By Telegraph to the Morning Star.

LITTLE ROCK, ARK., Oct. 25.—P. A. Atwood, a passenger conductor employed by the St. Louis, Iron Mountain and Southern railroad, was shot and killed to-day near Farrell station, fifteen miles east of Little Rock, by Houston Hooker, a negro porter.

Hooker's alleged grievance against Conductor Atwood was that the latter slapped him in the face, after reprimanding him on the ground that he had been inattentive to passengers. Hooker was brought here for safekeeping. A small party tried to take the negro from the officers after they left the train, but the attempt was frustrated. To-night the whereabouts of Hooker is known only to the authorities. An effort to lynch the negro will likely be made if he can be reached by a mob.

TRIAL OF M'CUE FOR WIFE MURDER.

Examination of Witnesses in the Sensational Case at Charlottesville, Va., Begun.

BROTHER OF THE ACCUSED.

Dr. Frank McCue, the First Witness, Told of Finding the Body of the Murdered Woman in the Bath Room—Dr. G. S. Venable's Testimony.

By Telegraph to the Morning Star.

CHARLOTTESVILLE, VA., Oct. 25.—The attorneys for ex-Mayor McCue, charged with the murder of his wife, who announced late yesterday that because of the illness of Mr. Harmon, chief counsel for the defendant, that they felt they could not proceed further, stated at the opening of court to-day that they had decided to go on. Mr. Coleman, an attorney from Lynchburg, has been retained in Mr. Harmon's place.

Dr. Frank McCue, a brother of the defendant, was the first witness. He was called to the home of the accused about 9:15 on the night of the tragedy. He said when he got inside the house he met the brother now on trial at the staircase, who said to him that there was some one in the house who had attacked him and probably "had shot Fannie," his wife. He detailed the finding of the dead body of Mrs. McCue, clad in a night-robe in the bath-tub on the second floor and described the wounds, there being one on the right ear, another on the left side of the nose, and a gunshot wound in the breast. The water was running in the tub at the time. On coming out of the bath-room, witness told his brother of finding the body, when the latter exclaimed, "Oh, my darling wife." As the witness repeated this, the accused buried his face in a handkerchief and burst into tears.

The witness also told of the finding of a gun and a baseball bat in the bath-room, the latter bearing a red stain near the end. The exhibits were identified by witness. The gun is a repeating shotgun. Witness believed his brother came into the doorway of the bath-room and saw the dead body. On entering the room the odor of burnt gunpowder was present, witness said. On meeting his brother in the house he asked where his wife was, when the accused, he said, told him to "go look for Fannie." He said he could get no replies to his questions from his brother; that he seemed dazed, and that when he went to attend his brother later he offered him a stimulant, which was declined. The witness said he observed a wound on his brother's cheek, from which blood was dripping on his shirt.

Mr. McCue said on cross-examination that his brother complained of pain in his head and that blood was dripping from his nose, which would result from an injury to the head, and that the wound on his brother's head was such as would be made by a blunt instrument. The witness was questioned as to the nature and effect of wounds produced by a sand-bag.

Dr. C. S. Venable, who was at the McCue residence shortly after the tragedy occurred, characterized the wound on the defendant's head as an abrasion. He found no other wounds on McCue's head. He, too, was questioned regarding sand-bag wounds.

Dr. Venable said he was holding the defendant's hand when the latter asked Dr. McCue if his wife was dead. Being informed that she was, he gave utterance to an exclamation. Witness said he noted no change in his condition after receiving the announcement that his wife was dead. He said he was surprised that McCue did not know his wife was dead up to that time. The defendant, in reply to him, had explained that some one rushed in and that it all happened so quickly. A number of people had gathered at the house when he arrived. The accused, he said, complained of pain in the back of his head, but on examination he found no external marks of violence. He did not observe blood coming from the defendant's nose, and in reply to counsel said a wound such as appeared on the defendant's head would not produce unconsciousness in his judgment. When he saw the accused the day following the tragedy he was perfectly rational.

Dr. Venable said that Mrs. McCue's night-robe was not blood stained until after her body had been turned over. The wound on the back of her head, he said, might have been made by contact with the bath-tub, but the one on the ear he thought to have been made with some blunt instrument. The gunshot wound in the breast, he said, was an inch long and badly powder marked, indicating very close range. It was of such a character that death would be practically instantanous. The wad from the shell had lodged against the spinal column. He gave it as his opinion that the wound could not have been inflicted with Mrs. McCue in the position in which she was found, and said he did not believe she could have stepped into the tub after having been shot, as he did not think more than a half dozen of heart-beats followed after the shot entered the breast.

The witness was closely examined by counsel for the defence as to the presence of a piece of blood stained cloth in the bathroom. Witness saw none, although he would not say that such a piece might not have been present and escaped attention during his investigation that night. On the day following the shooting he testified that he discovered finger marks on Mrs. McCue's throat, made in his opinion by a left hand, also a broken finger nail on one hand. The defendant did not touch the dead body of his wife to the knowledge of the witness.

The blood stained night robe was shown to the jurors, each of whom carefully inspected it. The defendant followed the testimony closely to-day and took deep interest in the evidence given. Only twice did he give way to emotions.

After City Engineer C. T. DeMott had described diagrams of the McCue house, the jury was taken to the premises on Park street not far distant from the court house, personally to view the house. Judge Morris, the court officials, attorneys, the defendant and plaintiffs accompanied the jury, the court having previously admonished the spectators that none must attempt to accompany them. Policemen were posted to see that the court's orders were not violated.

After the interior arrangements of the McCue home had been noted and distances from the house to different points told them, the jury returned to the court room and adjournment was taken until tomorrow.

A GOOD ENGRAVING HOUSE.

It is just as easy to have the best engraving as the kind that's not so good. Then, there is a certain satisfaction in knowing that the forms used are perfectly correct—according to the latest mandates of fashion.

TAKES A BOLD STAND.

Against a Mighty Mean Canvas Swindle With Many Big Shows.

The Great Forepaugh and Sells Brothers Animal and Arenic Aggregation, which will pitch its big tents in Wilmington on November 15th announces that, in justice to all purchasers of only a general admission ticket, its reserved seats occupy less than three-tenths of its seating capacity, and are confined to one broad side of the canvas, every seat in the immense space on the other side being reserved for and open to all comers. Furthermore, that so enormous is the seating capacity of its huge hippodrome tent, it is very seldom necessary to utilize the end seats; while the occupancy of a reserved seat is purely a matter of personal preference—not of gouging craft and calculation. Here is a shining example for those montebanks to follow, who ignore the plain fact that everybody—old or young, rich or poor, posted or unsophisticated—that pays the advertised price to see any kind of entertainment is enlitled to protection from imposition on the part of its management, and any disregard of that rule involves both fraud and disappointment. As many, to their cost and discomfort, know, it is a notorious and discreditable fact that some shows persistently, covertly and outrageously violate it and indirectly swindle their patrons wholesale, by adopting a reserve seat system which virtually deprives the purchaser of a 25 or 50-cent ticket, as the case may be, of more than the distant ghost of a chance to see and enjoy the performance, unless he can afford to and will stand for being fleeced out of as much more.

CITY OF FAYETTEVILLE IN TROUBLE.

Cape Fear Steamer Levied on by Officer Under Attachment.

Yesterday afternoon's Fayetteville Observer has the following:

A few days ago Mr. Herbert Lutterloh got a restraining order against the Fayetteville & Wilmington Steamboat Company, and an order to show cause why a receiver should not be appointed for the company. Yesterday the order was vacated and judgment given Mr. Lutterloh for a bond $450, and $150 additional.

Yesterday John I. Jacobs, of New York, to whom had been assigned claims of the crew of the City of Fayetteville, of salaries due them, obtained seven judgments amounting to $1,340 in all, and execution was issued, and Constable Goddard levied on the "City of Fayetteville."

The boat is still in his hands, awaiting further developments in the case.

BIG DAMAGE SUIT AT RALEIGH.

Wife of Engineer Suing the Seaboard Air Line for Death of Her Husband.

[*Special Star Telegram.*]

RALEIGH, N. C., Oct. 25.—Wake Superior Court began to-day the trial of the suit of Mary Stewart vs. the Seaboard Air Line for $30,000 for killing her husband, S. T. Stewart, engineer, in a collision between his engine running light and a freight train at Manly, near Southern Pines, June 23rd, 1903. The defence is that Stewart contributed to his own death by overlooking orders and running beyond the point he was ordered to pass the freight.
